Professional Summary:

Java/Web technologist conversant with numerous database systems and scripting languages, having a proven track record of immediate productivity, and possessing considerable analytic, speaking and writing skills

Technologies Summary:

- *Current as of 2008-09:* Java, PHP, Apache, Ajax, Javascript, Linux, MySQL, ExtJS, SQL, XML
- *Current as of 2006-07:* Tomcat, Tiles, Struts, Solaris, Servlets, Python, Oracle, Hibernate, etc.

Contract Experience 2006-09:

Javascript/ExtJS Contractor

Chick-Fil-A **Atlanta, GA** **Jan 2009 - Mar 2009**

Dramatically improved prototype of web based labor scheduling application such that when demonstrated to unit operators at annual seminar an unprecedented number signed up for the pilot

Technologies: Java, Javascript, JSP, ExtJS, JSON

Java Contractor

S1 Corporation **Norcross, GA** **Nov 2008 - Dec 2008**

Assisted in preparation for migration to new UI by development of automated analysis, scripts and tests that acted on batches of hundreds of source code files

Technologies: Java, JSP, JDBC, Selenium, Javascript

PHP/Java Contractor

itaas **Johns Creek, GA** **Nov 2007 - Oct 2008**

Employed own miniature MVC framework (<http://code.google.com/p/barebonesmvc-php/>) to convert 70+ HTML pages to dynamic PHP content to meet initial one month deadline for delivering the web UI for Cisco/TimeWarner

Technologies: Actionscript, Awk, C, CVS, Java, Javascript, jQuery, Linux, Mac, PHP, Samba, Shell, SOAP

Lead: 3-4 local and offshore developers

Python/Java Contractor

Crosstel **West Point, GA** **May 2007 - July 2007**

Performed necessary analysis and created high level architecture documentation for proposed system to enable pre-payment of cable/internet/phone service for Knology, including initial prototyping of web interface using a mod_python port of own PHP MVC framework, while leading one junior developer.

Technologies: Python, Oracle, MySQL, mod_python, Linux, Java, JDBC, Apache, RCS, Samba, Eclipse

Lead: 1 local developer

PHP Contractor

Yahoo! **Atlanta, GA** **Jan 2007 - May 2007**

Maintenance of PHP applications for delivering software such as Messenger and Jukebox to customers of Yahoo!'s various Broadband partners

Technologies: Unix/BSD, PHP, Perl, Javascript, Awk, AJAX

Java Contractor

CypressCare **Duluth, GA** **May 2006 - Sept 2006**

In five months delivered departmental application that had been promised for previous year and a half, overcoming a bug in Struts (reported and acknowledged) along the way

Technologies: Eclipse, Hibernate, HTML, Java, Javascript, JSP, SQL Server, Struts, Tomcat, XML.

Endorsed: Work for this position endorsed on LinkedIn (by the author of Oreilly's: Programming Struts)

Java Contractor

Shaw Industries **Dalton, GA** **Mar 2006 - May 2006**

Introduced significant refactorings while maintaining hybrid Struts application, including a new abstract class to do away with cut-and-paste stub implementations required by the custom framework's primary front controller interface.

Technologies: Eclipse (WSAD), HTML, Java, Javascript, JSP, SQL Server, Struts, Transact-SQL, WebSphere, XML.

Notable Experience 1998-2005:

Java Contractor

Bell South Atlanta, GA **June 2005 – Nov 2005**

In less than half year finished prototype of departmental application scheduled for over 2.5 person-years, despite numerous obstacles including switching from Spring WebMVC before transitioning to Struts/WebLogic platform

Technologies:

Ant, Eclipse, HTML, Jakarta POI, Java, Javascript, JSP, Oracle, Spring, Struts, SQL, Tiles, WebLogic, XML

Java/Documentum Contractor

Trane/American Standard Clarksville, TN **Sep 2004 – Feb 2005**

Supported Documentum web application through "go live" and directed offshore developer in development of significant additional features

Technologies: ASP, Documentum, Eclipse, Java, Javascript, JDBC, JSP, Servlets, VBScript, WebLogic, XML

Lead: 1 offshore developer

Endorsed: on LinkedIn

PHP Contractor

SumEffect Software Franklin, TN **Nov 2003 – May 2004**

Contributed to success of startup by shouldering programming load equivalent to entire previous year's revenue

Technologies: Access, Awk, HP-UX, Korn, Perl, SQL, Subversion, Sybase, Unix, VBA, vi, VSS

PC Programmer

The Buckle, Inc. Kearney, NE **May 2002 – Jan 2003**

Development of Java applications and classes in support of retail chain's AS400 merchandise database. Storage and retrieval of images as "BLOBS" using JDBC against DB2 on AS400

Technologies: Access, Eclipse, HTML, Java, JDBC, JSP, Servlets, SQL Server, Tomcat, VBA, XML

Database Administrator

Regional West Medical Center Scottsbluff, NE **June 2001 – Mar 2002**

To conform with HIPAA, used Perl DBI to port automatically purged data, from Oracle-based third party software to MySQL, transferring first batch of half million records in half an hour, and subsequent updates as a Linux cron job.

Technologies: Access, Apache, CGI, CSS, HP-UX, HTML, IIS, Linux, MySQL, ODBC, Oracle, Perl, PHP, Tcl, UNIX, Windows 2000, XML

Web Development Contractor

WorldCom Colorado Springs, CO **Oct 2000 – Jan 2001**

Maintenance of existing departmental Intranet application using ASP, HTML & Javascript, dramatically streamlining front-end code. Development of FTP/Sockets application for Unix(SCO)/Windows interoperability, prototyped with Python, then initiated production coding in Java.

Technologies: ADO, ASP, HTML, Java, Javascript, Python, SQL Server, UNIX (SCO),

Web Development Contractor

Agilent Technologies Colorado Springs, CO **Apr 2000 – Oct 2000**

Migrated and re-branded departmental intranet following the HP spin-off. Developed and disseminated style sheets with CSS to conform to Agilent's new corporate standards for look and feel.

Technologies: ASP, CGI, CSS, HTML, Javascript, Perl, Python, Unix (HP-UX), vi, VBScript

eCommerce Developer

NxTrend Technology Colorado Springs, CO **Oct 1999 – Mar 2000**

Maintained and modified the eCommerce module of a commercial ERP software solution using HTML and Progress' proprietary web scripting language "WebSpeed". Implemented "non-stock" functionality missing from earlier software versions, modifying server side Progress database code. Performed client side data validation using Javascript.

Technologies: CSS, HTML, Progress 4GL, IIS, Javascript, Trend (ERP), UNIX (AIX), VSS, WebSpeed

Database Programmer

American Games Council Bluffs, IA **Sep 1998 – Aug 1999**

Development of Progress database applications in support of manufacturing enterprise. In first position dedicated to Information Technology, developed application to save over a week's work every month, and therefore nearly ten thousand dollars yearly.

Technologies: Access, Progress (ver. 7.3, "CHUI"), SCO, Symix (ERP), Unix, VBA
